

Tokenomics Slide

Token Distribution & Allocation

GTLM TOKEN GENERAL INFORMATION

Chain: Multichain (Polygon, Optimism, Avalanche, Arbitrum)

Name: GTLM Token

Symbol: GTLM

Decimals: 8

Type of Token: Utility Token

Total Supply: 1 billion GTLM

Initial Supply: 100 million GTLM (10% of Total Supply)

Initial Market Cap: \$15 million USD

TOKEN ALLOCATION

35% Project Development: Funding towards the development of the platform.

25% Marketing & Promotions: Allocated for marketing activities.

25% Project Liquidity: Ensuring sufficient liquidity on exchanges.

8% Partnerships: Establishing strategic partnerships.

4% Operational Costs: Covering day-to-day operational expenses.

3% Legal: Legal expenses and regulatory compliance.

TOKEN DISTRIBUTION

55% Application/Project Rewards: Allocated as rewards within the platform.

15% Company Reserve — Treasury: Held as a reserve for future needs.

10% Team (vested 36 months): Allocated to the team, vested over 36 months.

8% Advisors (vested over 24 months): For advisors, vested over 24 months.

4% Private Sales: Tokens sold in private rounds at \$0.05 USD per token.

6% Public Sale: Tokens available for public purchase at \$0.15 USD per token.

2% Airdrop/Giveaways: For promotional activities.

GTLM Token Economic Model

Overview

The GTLM Token is a utility token designed for the "Gentlemen's Club" platform, operating on a multichain framework (Polygon, Optimism, Avalanche, Arbitrum) to ensure wide accessibility and interoperability. The tokenomics are structured to support platform growth, user engagement, and long-term sustainability.

Token Supply and Initial Valuation

Total Supply: 1 billion GTLM tokens.

Initial Supply: 100 million GTLM tokens (10% of total supply).

Initial Market Cap: \$15 million USD, reflecting the initial valuation of the token in the market.

Pricing Strategy

Private Sale Price: \$0.05 USD per token, targeting early investors and institutional partners.

Public Sale Price: \$0.15 USD per token, making it accessible to the broader public.

Allocation and Distribution

Project Development (35%): These funds are allocated for software development, game integration, blockchain technology implementation, and other developmental activities.

Marketing & Promotions (25%): A significant portion is dedicated to creating market awareness, user acquisition, and promotional activities.

Project Liquidity (25%): Ensuring that the token has sufficient liquidity on exchanges is crucial for stability and user confidence.

Partnerships (8%): Forging strategic partnerships to enhance platform capabilities and reach.

Operational Costs (4%): For the day-to-day running of the platform.

Legal (3%): To navigate the complex legal landscape of online casinos and cryptocurrencies.

User Rewards and Incentives

Application/Project Rewards (55%): A majority of the tokens are reserved for user rewards, incentivizing participation and engagement on the platform.

Airdrop/Giveaways (2%): These tokens are set aside for promotional activities to increase platform adoption.

Long-Term Token Stability

Company Reserve (15%): Held as a strategic reserve for future expansion, emergencies, or other unforeseen needs.

Team and Advisors: Allocated 10% and 8% respectively, with a vesting period (36 months for the team, 24 months for advisors) to align their interests with the long-term success of the platform.

Economic Drivers

The GTLM Token is designed to drive platform engagement and loyalty. As users participate in games and activities, they earn GTLM tokens, which can be used for various purposes within the platform.

The limited initial supply with a controlled release mechanism is intended to create a balanced demand-supply dynamic, potentially enhancing the token's value over time.

The pricing strategy for private and public sales aims to attract early adopters and investors, while also ensuring a fair opportunity for wider public participation.

Regulatory Compliance and Legal Considerations

A portion of the allocation is dedicated to legal compliance, crucial for navigating the evolving regulatory landscape of online casinos and crypto assets.

Conclusion

The GTLM Token's economic model is strategically designed to balance immediate operational needs with long-term growth and sustainability. The token serves as a core component of the "Gentlemen's Club" ecosystem, incentivizing user engagement, ensuring platform liquidity, and aligning the interests of the team, advisors, and users. This model aims to establish GTLM as a valuable asset within the online casino industry, driven by the innovative use of blockchain technology and a strong focus on transparency and user experience.
